

DRAGO

THREAT INTELLIGENCE

INDUSTRIAL CONTROL SYSTEMS CYBERSECURITY

VISIBILITY. DETECTION. RESPONSE.

WHO WE ARE

Founders

Former NSA; ICS experts

CEO

Rob Lee

Cyber Threat Intelligence
(FOR578) & ICS Active Defense
& Incident Response (ICS515)

VP Intel

Sergio

Caltagirone

The Diamond Model of
Intrusion Analysis

Team of Specialists

Malware Reverse Engineering
Threat Analytics Development
Vulnerability Research
Intelligence Analysis
Intelligence Collection
Adversary Hunting

WHAT WE DO

Intelligence is a service delivered as a product. Our work is to **answer questions**. We continuously hunt for previously unknown information about threats to industrial control systems and bring that **knowledge** to our customers and partners.

- Threat Research
- Region/Market Perspectives
- Vulnerability Research
- Protocol Analysis
- Open Source Research
- Engagement Support
- Threat Detection and Analytics
- Blogs
- Media
- Customer Threat Briefings
- Threat Perspectives

THE DRAGOS **ECOSYSTEM**

Comprehensive **Technology**

Expert-Guided **Services**

Unique **Threat Intelligence**

THE DRAGOS PLATFORM

ICS **monitoring software** for comprehensive **asset identification**, **threat detection** and **response**

ICS SECURITY SERVICES

Expert **guidance** to combat and respond to adversaries via **incident response**, **proactive services**, and **training**

DRAGOS WORLDVIEW

In-depth **situational awareness** of the threat landscape via **actionable insights** and **intelligence reports**

THREAT INTELLIGENCE AND THE DRAGOS ECOSYSTEM

THE DRAGOS PLATFORM

THREAT ANALYTICS

Derived from intelligence on ICS adversary tactics, techniques, and procedures

Authored and updated by Dragos' intel team and delivered every ~8 weeks

THREAT INTELLIGENCE AND THE DRAGOS ECOSYSTEM

ICS SECURITY SERVICES

THREAT LANDSCAPE

Services leverages **expertise** and in-depth **understanding** of the ICS landscape to provide tailored:

- Training
- Assessments
- Threat Hunting
- Incident Response
- Managed Hunting

THREAT INTELLIGENCE AND THE DRAGOS ECOSYSTEM

WORLDVIEW

ACTIONABLE INTELLIGENCE

- Vulnerability Assessments
- Indicators of Compromise
- Detailed Adversary Tactics, Techniques, and Procedures
- Victimology
- Mitigations
- Defensive Recommendations

OUR PRODUCTS

Dragos Intel continually researches and assesses the ever-changing ICS threat landscape to keep customers and community **informed**, to stay ahead of adversaries, and to **adapt and evolve** to defend against those who aim to disrupt civilization. Our in-depth intelligence products include:

- Advisory Alerts
- Activity Group Reports
- Suspect Domain Reports
- Executive Threat Insights
- Technical Reports
- Campaign Reports
- Vulnerability Reports
- Weekly Reports
- Monthly Reports
- Monthly Webinars
- Special Reports
- Year in Review Reports

The background of the slide is a dark, monochromatic photograph of an industrial facility. It features a complex network of large, curved pipes, structural steel beams, and various mechanical components like valves and ladders. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of scale and complexity.
