

Bio: Vince Crisler

Vince Crisler has more than 20 years of IT and cybersecurity leadership within the Department of Defense, federal civilian government, and the private sector. He is the CEO and Founder of Dark Cubed, a cybersecurity product company focused on innovative solutions for small and midsize companies. He is on the IT Security Executive Council for CompTIA and a member of the Industry Advisory Board for Embry Riddle Aeronautical University.

Prior to founding Dark Cubed, Crisler supported the Department of Homeland Security (DHS) and Sandia National Laboratories in the development of cybersecurity protection programs to defend the networks of Federal Departments and Agencies, as well as those belonging to critical infrastructure and key resources (CI/KR) owners and operators. Crisler was the primary author for the five-year technical vision for the National Cybersecurity Protection System, a \$3B cybersecurity program within DHS. He was also a co-author of the DHS Enhanced Cyber Services (ECS) Program, establishing a critical cybersecurity information-sharing program, which was formally announced in Executive Order (EO) 13636, Improving Critical Infrastructure Cybersecurity.

Crisler also served as the CISO for the White House's Executive Office of the President and was responsible for the creation of the first-ever cybersecurity operations center to protect White House networks.
