

**Glen Gulyas**, Founder and CSO of [Onclave Networks](#), has launched and built multiple tech startup companies over the course of many years. Most have focused on communications and cybersecurity enterprise solutions, highlighted by the creation of Onclave's game-changing Secure IoT platform—the first Zero Trust Secure Communications Platform for OT and IT.

Supported by a top-tier board and management team, he has brought his experience and custom approach to solving problems created by the Internet of Things, 5G and ever escalating cyber threats.
