

**Peter Fischer**  
**Senior Director, Cyber Programs**

Mr. Fischer is the Senior Director of Cyber Programs at Sierra Nevada Corporation (SNC), a high-tech electronics, engineering and manufacturing corporation. Mr. Fischer has a Bachelor of Science in electrical engineering and 27 years' experience in product development and fielding of new and innovative software, embedded controls and cybersecurity for the commercial and government industrial sectors.

Mr. Fischer has three U.S. patents for industrial controls and machine-to-machine cybersecurity. In his current role as Senior Director of Cyber Programs, Mr. Fischer is responsible for product strategy, new product development and market launch of SNC's portfolio of cybersecurity products including the *Binary Armor*<sup>®</sup> family of cybersecurity solutions for industrial control, SCADA and IoT networks.

Owned by Chairwoman and President Eren Ozmen and CEO Fatih Ozmen, SNC is a trusted leader in solving the world's toughest challenges through best-of-breed, open architecture engineering in Space Systems, Commercial Solutions, and National Security and Defense. For nearly 60 years, SNC has delivered state-of-the-art civil, military and commercial solutions to customers worldwide, including more than 4,000 space systems, subsystems and components. SNC has participated in more than 450 missions to space, including to Mars, and is recognized among The Top 10 Most Innovative Companies in Space. SNC is also a Tier One Superior Supplier for the U.S. Air Force and is the only aerospace and defense firm selected as a 2020 US Best Managed Company. From engineers and scientists to cybersecurity experts and software developers, SNC's workforce of more than 4,000 dreams, innovates, inspires and empowers the next generation to transform humanity through technology and imagination.
