

**BIO: Robert Henry**

*Federal Engineer – Cybersecurity Subject Matter Expert (SME)*

Bob brings over 25 years of enterprise network and mission systems engineering expertise to the Fidelis Federal Solutions Division. More than 20 years have been dedicated to supporting DoD Component, Service and Agency requirements. As a network and data security subject matter expert, he has a proven success record in defining security requirements, implementing new technologies securely, providing technical consultation, and articulating technical initiatives to executive leaders. Bob holds a Bachelor of Science degree in International Security and Diplomacy, Walsh School of Foreign Service, Georgetown University. In addition to numerous industry certifications earned in his career, he obtained the Certified Information Systems Security Professional (CISSP) designation in January 2002.
